

LIFEBOAT BAGS – FILLING & OFFLOADING KIT

CANFLEX offers all the required accessories for the filling and offloading of any number of Lifeboat Bags (LBB). The Filling & Offloading Kit is shipped and stored in a collapsible and stackable bulk crate made of HDPE plastic. Corners interlock for quick set up and added stability and there is 4-way forklift access. The collapsible bulk container (CBC1) complies with ISPM 15 standard for International exports.

Some of the Lifeboat Bag Filling and Offloading Kit features are:

- 6 x 1" 20ft suction hoses w/ male camlocks at both ends
- 6 x 1" PVC ball valve w/ female camlocks at both ends for manifold
- 1 x 6 port manifold w/ 2" M camlock w/ ball valve x F camlock w/ dust cap
- 1 x 2" 50ft fill/discharge fire hose w/ 2-1/2 NST swivel x 2" female camlock. Fire hose can be converted from fire 2-1/2 NST thread to a 2" male camlock connection.
- 1 x water meter w/ female camlock w/ ball valve x female camlock
- 1 x Air driven double Diaphragm water pump w/ female camlocks
- 1 x 2" 6 ft suction hose w/ male camlocks at both ends
- Shipping/Storage HDPE collapsible crate (CBC1: 48x45x36"H)
